

THOUSANDS OF CUBANS FED

IMPORTANT RELIEF WORK DONE BY CHARLES W. GOULD.

Only Ten Per Cent. of the Food Given to Cuban Soldiers and the Rest to Reconcentrados—Work Also Done for Many—Grumbling Because They Can't Celebrate Special Cable Despatch to the Sun.

HAVANA, Dec. 30.—Through the Junta Patriótica has issued a statement declaring that it will act in conformity with the decision of Gen. Ludlow and Gen. Brooke regarding the proposed celebration in honor of the ending of Spanish sovereignty. The Cubans generally are excited over the matter, considering that the decision of the Junta is an arbitrary exercise of authority. Nevertheless, there has been no hostile demonstration against the Americans.

The Cuban Army is quiet. The soldiers believe that the trouble was caused by the attitude of the Cuban General, Maximo Rodriguez, who tried to force a recognition of the Cuban army from Gen. Ludlow when a Cuban detachment under Gen. Menocal came to Havana a few days ago to assist the Americans in preserving order. Gen. Rodriguez, as called to the Sun at the time, refused to have a meeting with the American military police, but insisted upon their being recognized as part of the army of the Cuban republic acting as allies of the Americans. The Cuban Assembly at Marianao issued a decree last night taking sides against Gen. Rodriguez, and authorized Gen. Menocal to arrest him. Gen. Rodriguez was arrested and taken to the military police station. When they are engaged in this capacity they will be discharged from the army. Gen. Menocal and Gen. Ludlow will hold a conference on the subject to-morrow.

Many families in Havana have removed from their homes to the military police station. This has been done to show disapproval of the action of the American authorities in forbidding the celebrations. The Cubans are very much worried over the appointment of Spaniards to the police force of the city. If an arrangement is not made with Gen. Menocal, possibly the police force will be composed of Spanish soldiers and members of the Spanish force.

Charles W. Gould has returned from the mission entrusted to him by Secretary of War Alger to relieve the starving people of the island. His work has been the most important arranged in Cuba and in three weeks he has made arrangements for the relief of 100,000 persons until January. Only 10 per cent of the food distributed by him was given to the Cuban soldiers. The rest was distributed among the former reconcentrados.

Mr. Gould also organized relief committees to procure work for the poor in addition to the work of distributing supplies to them. At Sagua 17,000 persons are already at work. The orphan asylums founded by Mr. Gould two weeks ago are now working splendidly. No beggars are seen on the streets after Sagua or Cardenas. At Sagua Clara 4,000 persons have been employed in the last week.

At Trinidad, Col. Brown of the Fourth Tennessee Regiment was appointed Chairman of the Relief Committee. He is setting thousands of people at work. At Matanzas 1,300 are already working. Mr. Gould gave orders to the committees to turn out the people who are unwilling to work. When the people display willingness to work they receive provisions sufficient to last them three months, and tools are furnished to them by the committees. As a result from 7,000 to 8,000 men are returning weekly to agricultural pursuits.

Mr. Gould is now working to secure the return of the Cuban soldiers to their homes. He is now submitting a report to Secretary Alger.

DISORDERS LAID TO THE UNLUCKY CLASSES. The fighting and the disorder that have been reported from Havana have not been caused by persons identified with either the military or the civil authorities. The trouble was caused by the lower classes of the city, who are dissatisfied with the military and civil authorities. The military and civil authorities are doing every possible way in restoring order in the island, and I can say positively that the military and civil authorities are doing every possible way in restoring order in the island, and I can say positively that the military and civil authorities are doing every possible way in restoring order in the island.

GEN. BROOKE'S ACTION APPROVED. Cuban Will Not Be Permitted to Celebrate in Havana on Jan. 1. The President and the Cabinet, from all accounts, are in the opinion that the celebration in Havana on Jan. 1 and the following days, the President and his advisers have decided that no official communications on the subject should be sent. While the officers of the Administration were apparently disposed from the first not to question the judgment of Gen. Brooke, they were influenced in the determination that no modification of the decision should be made by the fact that Gen. Brooke is on the ground, and that the celebration in Havana is a matter of internal order, and that the celebration in Havana is a matter of internal order, and that the celebration in Havana is a matter of internal order.

THE PRESIDENT AND THE CABINET. GAVE UP HIS LIFE IN VAIN.

Harry Hoffman Went to Grace Doran's Rescue and Both Were Drowned.

Grace Doran and Harry Hoffman were drowned in a boat accident in the harbor of New Rochelle. The boat was carrying a party of about twenty persons, and the accident occurred while the boat was attempting to cross the harbor. The bodies of the two were recovered from the water, but the search for the other persons is still going on.

Grace Doran was a young girl, about 16 years old, and Harry Hoffman was a young man, about 18 years old. They were both students at the New Rochelle High School. The accident occurred on Friday afternoon, and the bodies were recovered on Saturday morning.

The boat was a small motor launch, and it was carrying a party of about twenty persons. The accident occurred while the boat was attempting to cross the harbor, and the bodies of the two were recovered from the water. The search for the other persons is still going on.

BATTLE WITH BURGLARS.

FOUR THIEVES EMPTY THEIR PISTOLS AT ONE POLICEMAN.

Shot Him in the Leg and Fled—They Were Cracking a Harlem Riverside Safe and a Police Launch Poked Its Nose Ashore—Dynamite Found in Place and Fuse Ready.

Launch No. 2 of the Harbor Police, manned by Police Officer Henry Morgan, William A. Gray and John McCuskey, was steaming up the Harlem River last night, when the policemen heard shouts for help coming from the shore. They turned the nose of the launch and beached the boat at the foot of 138th street.

While the three other policemen were looking after the launch, Helfrich jumped ashore and ran to the office of Leonard Brothers, coal dealers, about 100 feet away. He had gone about fifty feet when two burly fellows leaped out of the window of the office, and drawing their pistols, he fired at Helfrich.

The first shot fired struck Helfrich in the right leg just below the knee. He fell to the ground, and shouting all the time for his fellow officers to hurry, drew his own revolver and opened fire on the two men. They kept on shooting at Helfrich as he lay on the ground, but failed to hit him again. It is not known whether any of Helfrich's shots took effect, but he believes that at least one of them did, as he thinks he heard one of the men cry out.

During the firing two more men jumped out of the window of the office. By this time all of the cartridges in Helfrich's revolver had been expended and he was reloading. The first two men had emptied their pistols also, so the two newcomers opened fire. Each had discharged his weapon once when they saw the other three policemen coming from the launch. The men who were on the ground, and who were coming to the launch, were the burglars. They were armed with pistols and a revolver, and they were carrying a large bag of loot.

One of the officers sent in an ambulance call to Harlem Hospital, and while they were waiting for the ambulance, they made an examination of the office. Beside the big safe in the office they found a complete set of burglars' tools, consisting of brace and bits, saws, fuses, jimmies and false keys. A hole had already been bored in the door of the safe and a charge of dynamite had been inserted. A fuse lay on the floor in such a position as to cause the belief that the burglars were in the act of inserting it in the hole when they were discovered by someone, who set up the cries for help that attracted the policemen's attention.

Who this somebody was has not been discovered by the police, as the person who called the ambulance was not seen. The person who called the ambulance was not seen, and the person who called the ambulance was not seen. The person who called the ambulance was not seen, and the person who called the ambulance was not seen.

CIPHER MESSAGE FROM GEN. OTIS.

Nothing in It Concerning the Military Expedition to Iloilo.

WASHINGTON, Dec. 30.—A long message in cipher came to the War Department from Major Gen. Otis at Manila to-day, and haste was made in translating it. It contained an account of the situation at Iloilo. The despatch showed, however, that Gen. Otis had not heard from Iloilo since Brig. Gen. Miller's expedition left Manila to occupy the town, which had been evacuated by the Spanish garrison and possession assumed by Aguinaldo's followers in the island of Panay. A Spanish reporter was told by a high official that the despatch was in cipher, but that it was made up principally of expressions of the opinions of Gen. Otis on the situation at Iloilo. It could not properly be made public. Gen. Otis went into details concerning the military things in the Philippines, telling of the progress of the military expedition, and of the situation at Iloilo. He also mentioned the situation at Iloilo, and of the progress of the military expedition.

No additional instructions have been sent to Gen. Otis concerning the occupation of Iloilo. The situation at Iloilo is still uncertain. The Spanish garrison has been evacuated, and the possession assumed by Aguinaldo's followers in the island of Panay. A Spanish reporter was told by a high official that the despatch was in cipher, but that it was made up principally of expressions of the opinions of Gen. Otis on the situation at Iloilo.

It is expected that the Spanish garrison will be evacuated, and the possession assumed by Aguinaldo's followers in the island of Panay. A Spanish reporter was told by a high official that the despatch was in cipher, but that it was made up principally of expressions of the opinions of Gen. Otis on the situation at Iloilo.

MRS. BOTKIN CONVICTED.

THE JURY SAY SHE POISONED MRS. JOHN P. DUNNING.

A Verdict of Murder in the First Degree with Imprisonment for Life was the Punishment—Mrs. Botkin Went During the Summing Up, but Heard the Result Calmly.

SAN FRANCISCO, Dec. 30.—The Botkin trial closed this afternoon and the case went to the jury. The closing argument for the prosecution was made by District Attorney Hosmer. He made many strong points against Mrs. Botkin and especially showed her desire to resume her relations with Dunning. Mrs. Botkin broke down under Mr. Hosmer's denunciation of her conduct in her sister's murder. Judge Cook charged the jury and they left the courtroom at 4:30 P. M.

At 9:30 P. M. the jury returned a verdict against Mrs. Botkin of murder in the first degree, with imprisonment for life. All the principal persons concerned in the case remained in court after the jury went out. Mrs. Botkin was there with her sister, very nervous and giving signs of much weeping. Judge Cook stayed in court and evidently expected a speedy verdict as the jury sent for no instructions. At 9:20 the jury sent word they were ready to report.

When the verdict was read Mrs. Botkin became very calm, and when the verdict was pronounced she did not move a muscle. It is understood that the jury stood nine for hanging and three for life imprisonment. As the minority refused to give way, the majority agreed to a life term to prevent a disagreement. Mrs. Botkin was accused of poisoning her husband with arsenic. The jury found her guilty of poisoning her husband with arsenic.

The theory of the prosecution was that Mrs. Botkin poisoned Mrs. Dunning so that she might resume her relations with Dunning. The jury found her guilty of poisoning her husband with arsenic. The jury found her guilty of poisoning her husband with arsenic.

The jury found her guilty of poisoning her husband with arsenic. The jury found her guilty of poisoning her husband with arsenic. The jury found her guilty of poisoning her husband with arsenic. The jury found her guilty of poisoning her husband with arsenic.

FRANCE WINS AT SHANGHAI.

The Chinese Government Disregards the British Minister's Protest.

SHANGHAI, Dec. 30.—It is officially stated that the Government has acceded to the demand for an extension of the exclusive French settlement here, despite the protest of Sir Claude MacDonald, the British Minister. This action was due to pressure exercised in Peking, and is likely to check the local negotiations which were being carried on here with the Taitai.

The Viceroy of Nankin is greatly chagrined over the failure of the British to support their policy in the Yang-tse-Kiang Valley. The Viceroy of Nankin is greatly chagrined over the failure of the British to support their policy in the Yang-tse-Kiang Valley.

A SPANISH MINISTER IN ALARM. The Very Existence of Spain Threatened by a Danger He Can't Mention. Special Cable Despatch to the Sun.

LONDON, Dec. 30.—A despatch to the Standard from Madrid says that much concern has been caused in political and diplomatic circles by an interview printed in the Liberal with an unnamed Minister. This Minister declares that above all problems of interior politics there is one question of extreme gravity, affecting the very existence of Spain, which preoccupies so deeply all Spanish statesmen that it should suffice to unite them in order to avert a catastrophe. He adds oracularly: "It is impossible to speak more clearly. I will only say that the preoccupation includes the question of the Spanish Republic, and some day give a pretext for the thing England is pursuing with effrontery."
